Another timely specialist Pharmacy gathering to test the current fussy market. Certainly, since we last offered a similar gathering much has changed worldwide, in all collecting fields, and prices here appear to reflect, and confer, with general trends - pointing toward how the market has altered, and (I feel) will continue to waiver/ alter.

Tastes change. Collecting habits change. Modern moves for decluttering (*the 'Ikea' notion of minimalism*) help reduce once reasonable values of so much collectable (*once collected*) material that is no longer chased, or valued particularly. He who acquired quality - chose wisely, he who chased bulk/ volume/ low end items did not.

This sale, as with our last 3 specialist ones, shows that better items, and more spectacular pieces with an impact, or decorative, appeal, **STILL** have a place amongst those homesteaders seeking objects out of the ordinary. Prices below inc. premium + vat:
